

Greg Isenberg

Founder/CEO

5by

I build remarkable digital products and do early stage seed investing. I've built marketing and social media campaigns for brands like FedEx, NASCAR, TechCrunch and Wordpress. I helped develop the world's most popular stock market simulator, Wall Street Survivor.

Currently, I'm the CEO of 5by (acquired by StumbleUpon) which plays you the best videos of the web on your iOS or Android device. I'm also a Venture Partner at Indicator Ventures, an early stage venture fund.
